

# Fire Escape Plan

**Print and fill out this form** with members of your household to make sure everyone is prepared in the event of a home fire.

1. Have a plan for young children or pets who cannot get outside by themselves. Who will be in charge of each child, pet, or person who needs help escaping?

---

---

---

---

2. Find two ways out of every room in your home, in case one exit is blocked or dangerous to use. Take notes below on any problematic rooms and note your escape plan.

---

---

---

---

3. Choose a meeting place outside your home. Children should know what to do when they hear a smoke alarm and there is no adult around. Help them practice going to the outside meeting place. Write down your notes and planned meeting place below.

---

---

---

---

4. Find the emergency number for your local fire department and note that below, as well as any additional emergency numbers. Choose a neighbor near your meeting spot who can help you call these numbers in case you don't have your phone.

---

---

---

---

5. Practice your plan. In the event of a fire, you may have less than two minutes to get out of your home. Remember to stay low to avoid the smoke. Practice your plan more than once and record your times below.
